Attention: Ron Weiss

Dear Mr. Weiss:

In regards to our telephone conversation on Friday, June 19, 1987, I would like to follow through with my request for splitting our lagoon sludge between two landfills, Spring Valley and Wabash Valley Reclamation.

Your restriction of no more than 300 cubic yards per day to Spring Valley will increase the time for hauling sludge from our lagoons (reference Mr. David D. Tamm letter of approval to Mr. Cecil R. Dunn dated February 12, 1987). This will increase our costs for the sludge removal and transportation. As a result, I would like approval to also haul sludge to the second landfill (Wabash Valley Reclamation) listed on our original request of November 6, 1986.

We have hauled approximately 3600 cubic yards to Spring Valley and with the restriction, time is important. Your cooperation and help in gaining approval would be deeply appreciated.

Sincerely,

CONTAINER CORP. OF AMERICA
